

DINA

Design CRS eforma

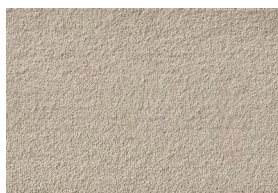

Dina è il tappeto di design dallo stile moderno, realizzato con l'intento di rendere accogliente l'ambiente circostante e completare l'arredo. La collezione di tappeti di design Dina è stata realizzata con una forte attenzione ai materiali: tessuto di cotone e ciniglia, personalizzabili in diverse finiture e varianti colore che creano note decorative significative che li rendono perfetti da abbinare agli arredi contemporanei. Grazie alla sua semplicità versatile, il tappeto Dina si abbina a suo agio con tavoli dalle forme scultoree come l'inconfondibile Tavolo Rotolo accompagnato dalle sinuose sedie Sofia Elite. La collezione Dina comprende al suo interno le forme rettangolari o rotonde, entrambe disponibili in diverse dimensioni. Per altre idee di tappeti di design vi consigliamo di consultare anche la collezione Alice e la collezione Arisa.

Dina is the designer carpet with a modern style, created with the aim of making the surrounding environment welcoming and completing the furnishings. The Dina designer carpet collection was created with a strong attention to materials: cotton and chenille fabric, customizable in different finishes and color variations that create significant decorative notes that make them perfect to combine with contemporary furnishings. Thanks to its versatile simplicity, the Dina carpet pairs well with tables with sculptural shapes such as the unmistakable Rotolo table accompanied by the sinuous Sofia Elite chairs. The Dina collection includes rectangular or round shapes, both available in different sizes. For other designer rug ideas we recommend you also consult the Alice collection and the Arisa collection.
